RE: Administrative Order Pursuant to Section 106 of
CERCLA for the Great Lakes Asphalt Site

Dear Mr. Hill:

I am in receipt of your letter dated December 16, 1989, in which you contend that your client, Roy Strong, believes he has no financial or other responsibility regarding the CERCLA 106 Order (Order) issued on October 6, 1989, for the Great Lakes Asphalt Site.

If your client believes that he does not have adequate resources to undertake the activities called for in the Order, please forward documentation which clearly provides proof of such a claim. If your client believes that he is not liable for the activities called for in the Order, please forward documentation or information which clearly proves such a claim. Meanwhile, please remember that your client is in violation of the Order, which, as you know, provides the United States Environmental Protection Agency the opportunity to seek penalties for violations of its terms.

Very truly yours,

Brett L. Warning
